ABOUT THE ORGANIZATION

Late Shri Mannalal Ji Goyal established SURENDRA PULSES in 1965. We are classified as a maker and processor of pulses and agricultural goods in the secondary industry.

MOONG, CHAWLA, BATLA, and BLACK CHANA are among our specialties. We also have a well-organized work environment and a well-defined procedure from raw materials to final items. We have never had any difficulty completing each and every work in a flawless and appropriate manner because of our significant expertise and understanding of the agro-industry. We also have an agriculture license that allows us to produce any agro product in a timely and effective manner.

We supply 100% human consumable pulses or completed items that have been machine cleansed.

Our distribution network stretches from Kashmir to Chennai, Assam to Rajasthan, and we mostly operate or sell their products in Gujarat, Madhya Pradesh, Assam, and Kerala. Furthermore, we buy raw materials directly from farmers or through brokers, and then sell completed items to third parties through brokers.

CLIENT TESTIMONIALS

“

For the past 20 years,
I've been placing orders with SP.
They've been with us since the beginning,
and there's still a long way to go.

Aadesh Singh

“

SP's order process was quick and simple,
saving me many hours and exceeding
my expectations.

Praveen Parmar

“

I picked SP since there was no other supplier
that offered all of the goods I required on
a one platform. It allows small businesses
like mine to provide a wide range
of items under one roof.
